

The 17th Annual INEBRIA (International Network on Brief Interventions for Alcohol and Other Drugs) Conference is taking place in September 2020 in Goa, India. The theme, '**Setting new directions for brief interventions**' seeks to recognise the integral role brief interventions play in addressing the burden, harms and societal costs associated with alcohol use, especially in low resource settings.

Through the conference, an attempt is being made to initiate a critical appraisal of what has been achieved until now in this field, and debate and discuss the next steps for brief interventions in specific cultural contexts.

The discussions and workshops at the conference will continue the tradition of providing an opportunity for practitioners, implementers, academics, policy-makers, and various other State actors to influence the agenda for brief interventions.

You are invited to join us on 24rd to 25th September 2020 in the breezy, tropical locale of Goa, India for an academic feast. Many exciting pre-conference workshops are also being planned for the 23rd of September, 2020.

We are delighted to welcome you to
